

Evil or just wrong? A game board

The Rules

1. Put the 36 cards in a deck, facing downward.
2. In turn, read out a card, starting each card with: 'How evil is...?' Ask the other players one by one: 'Where would you put it? Why?' Listen to them.
3. Then - ignore them! Put the card where it goes for you.
4. During your turn, as well as putting a new card down you may **move one other card** up or down.
5. There should be no overlapping cards. One card per rectangle.
6. When the board is full, play three times more around the group, swapping two cards and saying why.
7. Then ask your teacher for a written task to follow up the discussion to help you clarify the arguments and to enable you to state your own views, with reasons.
